Re: Revised Work Plan
Kokomo Dump Site (C564)
1130 South Dixon Road
Kokomo, Indiana
Docket No. V-W-13 C-018

Dear Mr. Adams:

The U.S. Environmental Protection Agency completed its review of the revised Work Plan, dated January 22, 2014, for the Kokomo Dump Site. SESCO Group (SESCO) submitted a Site Health and Safety Plan (HASP) and Quality Assurance Project Plan (QAPP) as attachments to the Work Plan. SESCO submitted these documents on behalf of the City of Kokomo to comply with the Administrative Settlement Agreement and Order on Consent (ASAOC) between EPA and the City of Kokomo.

EPA approves the Work Plan and accepts the HASP as a submittal. The revised QAPP is under EPA review, but may be used in the interim. The schedule in the Work Plan should be implemented. You should provide me with advance notice of any field activities.

If you have any questions concerning this matter, please contact me at 317-417-0980.

Sincerely,

A handwritten signature in blue ink, reading "Shelly Lam", is positioned above the typed name.
